# ABOUT LESLIE INC.

## A RESOURCE FOR A LIFETIME OF SUCCESS

Leslie Inc. specializes in helping stressed, anxious, and overwhelmed business leaders and entrepreneurs during the most critical moments of their personal lives and careers with coaching for results.

Leslie Inc. was founded by Leslie Juvin-Acker in 2008 at the beginning of the global economic crisis. She began by coaching struggling business leaders

and young college graduates who, over 10 years later, still credit Leslie for much of their professional, financial, and personal life satisfaction.

One of Leslie's first clients was an immigrant with an accounting background who barely spoke English. He now sits as CEO of one of the world's largest real estate companies.

Leslie focuses on the unique connection between emotional intelligence, imagination, and business performance.

Leslie is dedicated to the long term career and personal development of her clients.

She builds trusting and intimate relationships with clients so they can get to the core root of challenges. She then builds up their self-esteem and skill repertoire so they can feel empowered to take on any challenge.
